On September 15, 2017, Naomi Miller (“petitioner”) filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) as a result of an influenza (“flu”) vaccine she received on September 23, 2016 to her right shoulder. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

following her September 23, 2016 flu vaccination within the Table time period, and there is not a preponderance of the medical evidence that petitioner's SIRVA was due to a factor unrelated to vaccination." *Id.* at 5. Respondent further agrees that "[t]he claim also meets the statutory severity requirements because petitioner experienced the sequelae of her SIRVA for more than six months" and has therefore "satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of respondent's position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
